International Conference and Exhibition (Science and Technology in Biomass Production: Optimizing University-Industry Collaboration)

When	25 dan 26 November 2009
Where	Aula Barat dan Aula Timur Institut Teknologi Bandung
Organizer	SITH ITB
Category	ITB
Participant	Umum
Link Agenda	http://www.sith.itb.ac.id/conference
Description	<p>In ICEBP 2009 we invite academicians, researchers, scientists, engineers, practitioners, as well as industrial professionals to present and exchange new ideas, practical experiences, current research findings and technological advances related to biomass production i.e., organic material, biological material, and living organisms with potential for industrial production.</p> <p>In this meeting we will also conduct interdisciplinary discussion on key issues and strategies related to the uniqueness of university and industry collaboration specifically in biomass production. The goals of this meeting are to expand the spectrum of collaboration and establish a platform for developing sustainable collaborations. Participation from all relevant parties is welcome.</p>
